TUESDAY, FEBRUARY 11, 1845.

Consolidated Account Current laid before the House.

THE Hon. Mr. NOAD, by command of His Excellency the Governor, presented to the House, a Consolidated Account of the Goods imported in the year ended 5th Day of January, 1845, shewing the aggregate quantities and values of the various articles, with the amount of duty collected thereon—and a Consolidated Account Current of Receipts and Payments for the same period.

Matthew Morry and others, Ferryland.

A Petition of Matthew Morry and others, the Board of Road Commissioners for the District of Ferryland, was presented by Mr. GLEN (who stated in his place that he had obtained the consent of His Excellency the Governor for that purpose) and the same was received and read, setting forth, that a more suitable line of Road between Caplin Cove Barrens and the Bridge at the foot of Hell-hill Road Pond than the present line, can be laid out with less trouble and expense; that a survey had been made of it, shewing it much superior to the former line; that the Bridge across La Maunche River on the line now open, is very defective and dangerous, and from its situation, never can be advantageously upheld, and owing to the exceeding steepness of the hill on the South-side of the River the approach never can be made usefully practicable; that the unfinished state of this portion of the main line renders the Road North and South of it of comparatively little use; that the portion of the line between Brigus and Toads Cove is the most important section of this Road; and praying that in any grant of monev to be made this division may be particularly attended to.

Referred to Committee on Roads and Bridges.

Ordered,—That the said Petition be referred to the Committee on Roads and Bridges.
